Celebrating 30 years of Octagon Ltd!

2017 is a special year for us; we are celebrating 30 years of business. You may or may not know, but our company actually began life in the vehicle security trade, and grew into the company we are today. Technology has developed very fast in recent years, and we are proud to say we have always managed to change with the times, ensuring our customers are provided with the most advanced security available.

"Over the years we have encountered a huge number of people, and some have been customers right from the very beginning! From the first day of Octagon, to the present day, our customers have always remained at the centre of everything we do. We also have a dedicated team of employees who work hard, do their best, and I'm very proud of. **We would like to take this chance to thank you all for your business over the last 30 years, and we endeavour to continue providing our services for many more years to come!**"

- Clive Bailey, Managing Director

End Of An Era

Many customers will have had the pleasure of speaking with our service coordinator Sue. Sadly for us, she has decided to retire this August.

After an impressive 15 years of service at Octagon, we would like to take a moment to thank her for being a valuable member of the team over all these years, and wish her many happy years of retirement.

Free Security Reviews

We are currently offering free security reviews for all existing customers. Find out how you can further increase your security.

Top Tips For Summer Security

Going on holiday?

Resist updating social media -

We know it's hard to resist sharing photos or updating social media whilst you're on holiday. However, doing so alerts potential burglars to the fact your house is vacant. Save your snaps until you're home, and ensure thieves don't know your home is empty.

Doing a spot of gardening?

Tidy up your tools -

If you're planning on getting stuck into some gardening, be sure to tidy up your equipment afterwards. Burglars love when tools are left lying around as they can be used to aid a break in.

Heading out the house?

Lock your doors and windows -

PVC doors should be locked properly using the bolts and the key, and windows must also be closed fully and locked. This prevents the thieves using them as an entrance during a break in.
